1. Claims 1 and 3-22 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of Uriu (US 5,647,966) teaches a method for manufacturing a ceramic green sheet inductor comprising forming a predetermined electrode pattern on an adhesive layer which is separable by being heated. The prior art also teaches that a ceramic green sheet is applied onto the electrode pattern. Uriu further teaches that the green sheet can be formed from a ceramic slurry. While the teachings in Uriu could be combined to arrive at the invention claimed by Applicant, there is no motivation in Uriu that would fairly suggest to one of ordinary skill in the art to apply the ceramic slurry to form a flat ceramic green sheet which adheres to the electrode pattern and the exposed surface such as is presently claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
